General Comments	Jaime is a very bright and intelligent girl and excelled with her SATs results this year, achieving Greater Depth across the board as we all knew she would. I have been very happy to teach Jaime this year - she is an excellent role model and a hard-working member of the class. I cannot fault her effort, attitude and the wonderful work she has produced. It has also been good to see Jaime engage in extra-curricular activities such as knitting and Dungeons and Dragons. I do think she will excel at secondary school but it would be nice to see her engage with adults a bit more - she can be very shy and quiet at times and I believe she should be more confident based on how well she actually performs in class. Well done.			Personal, Health, Social Education (PHSE)	1

How you can help	We are very proud of all our Year 6 children for their hard work and effort this term, and throughout the whole of their final year at Aldwyn. They have coped well through difficult SATs tests, and we couldn’t be happier with their attitude as they move towards High School. Continuing to encourage and help with reading tasks will certainly help your child make further progress. It will also be important to guide them through new routines and heavy timetables - remembering books, belongings and homework activities, etc, as they transition to independent young adults.
